

Program Review Student Survey

Dear Student:

As part of a review of the quality of academic programs at Ryerson University, we are asking that you complete a student survey. Although your participation is voluntary, your feedback is an important element of periodic program review. Responding to the survey or declining to answer any question will in no way affect your standing as a Ryerson student.

Once your completed survey has been received, your email address will be removed from the data. The survey that you complete will be used only to produce summary reports. The data will be used for purposes such as curriculum planning and program development and may also be used for scholarly and professional purposes. Only one completed survey per student will be considered in the analysis. Students must use their Ryerson email to access the survey.

Your username (**xxx@ryerson.ca**) will be recorded when you submit this form. Not xxx? [Sign out](#)
